HO. JULUU, July 20.—The case egainst Stanley Dollar, president of the Dollar Steamship Company, on the charge of grossly cheating in selling tickets for passage to Victoria on the steamer Stanley Dollar, which had no passenger license, is still unsettled. The steamer left for Victoria Saturday night last with several hundred Japanese, having been given a passenger license by inspector Birmingham, upon the latter's arrival here. Dollar says he will fight those trying to prevent him taking laborers from here. He had not intended to make any other trip, he declares, but things have been made so unpleasant here for his company that he will put a steamer regularly into the business of carrying Japanese from Honolulu to Victoria. The Dollar Steamship, Company has six steamers on American registry, he says, one of which will be used, if convenient, or another steamer purchased. DOLLAR THREATENS HONOLULU

This delegate said the resolution was not strong enough, and at his motion it was referred to a committee for referring. A stronger resolution for redrafting. A stronger resolution along the same lines was adopted. The second resolution calls on all officials of imperial and local governments throughout the empire to defend the public against bureaucratic outrages.

PROPOSED CONSTITUTION.

Then the delegates took up the out-line of the proposed constitution as mapped out by the committee of the congress-having this matter in charge. Protests were made against inadequate representation of the people in law-making bodies. Another point made lation to female suffrage and its fallure to obtain recognition from the im erial authorities. The sketch of the constitution was put to vote and adopted by a vote of 220 to 7. Arrangements were ordered for the plan, with or without the permissio of the official censor.

MUST APPEAL TO PEOPLE. Violent opposition was raised by the motion to get up a general petition to the Emperor embodying required legislation as soon as the congress should re-examine the plan. It was asserted vehemently by the presiden of the Moscow Agricultural Society Petrunkevitch, that nothing could be expected from the Czar. Hope of ac tion in good faith on the part of the government, he said, had been aban-doned by observant men. All old abuses were flourishing. It even was difficult to say whether even zemstvo

PLASTES FROM THE WIRES

NEW YORK, July 20.—Assistant District Attorney Krotel, with the assistance of another official, today began an investigation of the Town Topica' books in the cases growing out of the prosecution of Charles H. Ahle on the charge of blackmail. The assistant District Attorney's examination developed the fact that Justice Deuls of the Court of Special Sessions, who has admitted his association with the Town Topics Company, appeared on the books as drawing claims each year ranging from \$1200 down. When Justice Deuls' attention was called to this the fact that \$1200 down. When Justice Deuls' attention was called to this the fact that the New York charter provides that no justice shall carry on any business or receive fees or perquisites, he said. "I have heard for a week that charges are to be preferred against me. I have nothing to conceal. I shall meet the charges at the proper time. Until then

MADRID, July 20.—Serious disorders have occurred at Seville, arising from the general distress. Four hundred farm laborers invaded Seville, looted the bakerles and shops and committed other depredations until they were dispersed by a strong force of police and gendarmes. A mob stormed the city hall at Salamanca, broke into the building and sacked it. A member of the Municipal Council, fleeing from the gioters, jumped from a widow and was killed. The Republicans are summoning mass meetings in Madrid and elaswhere. The government is taking precautions.

TORIA (B. C.) July 20.—George illns, who today began his fight at extradition to San Prancisco

When the strike was declared, in April, the firm was in a quandary as to how to make deliverles. Every department store was picketed. Then it was that the faithful wives filled the situation of difficulty. Next day the two sisters-in-law appeared at the awartown store. They wore their best gowns, their prettiest hats and their prightest amiles. A horse and buggy were procured, and into this were placed from twenty to forty neatly-wrapped packages containing the choicest auts of meat that the firm had in stock. The women then drove downto-in. They stopped at the Washington-street entrance of Marshall Field's, where the clerks received the packages.

Pickets guarded the alley, but never aspected how the firm was receiving a meat supply. This method of pro-dure was repeated a dozen times and day. San Francisco Hotels.

All are returning to Russian. The Temps says Witte's statement was

not in a mere retrospective manner, but because he was in a better position than ever before to assist his government. "This does not mean, however," says the Temps, "that M. Witte has made more sacrifices than the other negotiators."

The Temps says further: "It is no bluff that M. Witte so fully develops in his declarations. The Japanese should take good account of M. Witte's statements. Russia he far from being crushed. It would therefore be absurd for Japan to attempt to impose extreme conditions; and, if exigencies force her to demand humiliating terms. force her to demand humiliating terms then the success of the peace nego tlations is irredeemably compromised.

IMPURE WATER

Is the direct cause of Typhoid, Malaria, Dysentery, Cholera Morbus, the fatal hot weather complaints. Duffy's Pure Malt Whiskey is prescribed by doctors everywhere as a sure preventive.

If you are going to the seashore or country-side for your summer vacation don't fail to take a bottle of Duffy's with you. The great-er share of the summer hotels and country farm-houses depend almost entirely upon impure wells and worm-eaten cisterns for their water supply. True, in most cases the drinking water is filtered, but think of the millions of tiny, minute germs which es-cape even the finest screened filter and cause typhoid, cholers morbus and bowel trouble. Examine a seemingly pure glass of drinking water under a powerful microscope and you will be horrified to find the water swarming with disease germs. Doctors of all schools asy to put a teaspoonful of

DUFFY'S PURE MALT WHISKEY in every glass of water you driak. It destroys the germs, cools the blood and strengthens the system. It is the positive cure for cramps, dysentery, sunstroke, cholera morbus, congestive chills and weak atomachs. Duffy's contains no fusel oil, and is the only whiskey recognized by the Government as medicine. Doctors for fifty years have used it.

CAUTION—When you sak for Duffy's be sure you get the genuine. Look for the tredemark, the 'Old Chemist,' on the label, and be certain the seal over the cork is unbroken. All draggists and greeers, or direct. \$1.00 a bottle. Medical booklet free. Duffy's Maif Whinkey Co., Rochester, New York.

I-4 Off Two-Piece Suits

The Silverwood Broadway store announces its annual Summer clean up of two-piece suits.

Without any exceptions the entire stock will be sold at one-quarter reduction.

This will interest every man who wants something smart in a Summer suit.

These suits have a certain individuality and air of exclusiveness that commends them to good dressers.

\$1.25 and \$1.50 Mercerized Underwear \$1.00

Both of the Silverwood stores are having a lively clean up of broken lines of mercerized underwear.

It comes in plain colors and fancy stripes, beautifully finished. Instead of \$1.25 and \$1.50, your choice \$1.00.

\$2.50, \$3.00, \$3.50, \$4 Waistcoats \$1.85

Drop in either of the Silverwood stores and take a look at the samples of high grade waistcoats that are going at \$1.80.

They come in the cleverest patterns, made of washable materials, and suitable to wear with any Summer business suits.

Regularly these waistcoats would sell at \$2.50, \$3.00, \$3.50 and \$4.00. Your choice \$1.85.

English Foulard Four-in-Hands 25c

Something new and snappy in neckwear. Ordinarily it takes 50c to acquire a title to one of these scarfs. Both of the Silverwood stores have them as a special attraction today and tomorrow at 25c each.

Pinkham, of Lynn, Mass., is fully quali fied to give helpful advice to sick women Read Mrs. Dimmick's letters. Her first letter:

and East Capitol Streets, Washington, D. C.
How easy it was for Mrs. Dimmick to
write to Mrs. Pinkham at Lynn, Mass.,
and how little it cost her—a two-cent
stamp. Yet how valuable was the reply!
As Mrs. Dimmick says—it saved her life.
Mrs. Pinkham has on file thousands
of just such letters as the above, and
offers ailing women helpful advice.

NEWS AND BUSINESS.

NEWS AND BUSINESS.

Portland Excursion.

The Chamber of Commerce excursion to Portlain will start ton-orrow morning. Most of the beautiful scenery will be passed in the daytime, and he who is not in on the tickets today will be out of it for good, alas:

Had a Bad Memory.

A woman went to Chick's bleycle establishment on Wednesday and said she had a wheel at home she wanted to trade for a lady's wheel. Just for convenience she rode her choice home, promising to send her's around. She forgot it, and Chick wants the police to find her.

Union Thugs Overawed.

Striking laundrymen threatened workers in the American Laundry at Eleventh and Los Angeles streets last high; and hing around the building until the employes went home at 9 o'clock. The groprietors forestalled violence and called the little game of buff by reporting the matter to the police and the imployes were not melested. The union thugs saw their plans had miscarried and they slunk sway.

Bunch of Burylaries.

Port Hill Improvement Association:
A. A. Bayley, S. A. Waldron, F. A. Pattee.

E. M. McGillin, a traveling salesman, who is a guest at the Angelus Hotel, reported to the police that his foom had been entered and a diamond hin abstracted from his trunk; G. H. Gibbs reported the loss of his watch, which he says he left hanging on the wall in The Times malling-room; W. E. Shoemaker, No. 20 North Grand avenue, reports his house entered on Wednesday afternoon and a diamond ring stolen.

Suit Transferred.

The damage suit of Ira F. Bourne yas the Cudahy Packing Company has been transferred from the Superior Court to the United States Circuit Court. Hourse was employed in making repairs at the Cudahy packing-house on January s last, and a team backed into him, crushing and permanently injuring one of this legs. He alleges that the team was frightened through negligence of Cudahy's employek. He want damages to the amount of 110,000.

Metropolitan Club.

The Metropolitan Club opened its new quarters at No. 535 South Broadwy last night, where the members have surrounded themselves with every comfort and some luxuries. The whole fourth floor is fitted up for their accommodation, with dining-room, buffel, game rooms, billiard room and sitting-room, the distingtion of the leaders in the improvement associations. A. J. Valdez alias Jimmie Green, a six-een-year-old boy with a bad record fift the police, was arrested last night by Patrolman Wallace on a charge of hy Patroiman Wallace on a charge of grand increny. A stolen wheel was found in the boy's possession. Valdez is also accused of having burglarised a latore at Ninth street and Central avenue a week ago. At that time the thief secured \$30. The boy was in the Whittier Reform School for some time, but he apparently did not profit by his experience there.

experience there.

Valentine is Found.

Charles Valentine, eldest son of Mrs.
Emily J. Valentine of Boyle Heights,
was discovered yesterday morning
about il o'clock, at the Alhambra junction of the Pacific Electric road. Young
Valentine has been missing since
Thursday of last week, having watedered away from his stopping place in
Long Beach. For a week he had wandered daway from his stopping place in
Long Beach. For a week he had wandered day for many has been affected for some years, from the results
of an accident, but he was able to give
some account of his wanderings. He
apparently has not suffered seriously
during his absence, and his attendant
say his mental condition is better
than it was before his disappearance.

Men's Clothing

Utter Sacrifice of \$40,000 Stock

October first is the date at which our men's clothing department must be entirely closed out and the floor now occupied given over to the hands of workmen who will arrange it for a different class of

Prior to this date we must absolutely turn into cash \$40,000 worth of men's and boys' clothing and kindred lines of goods. Our closing out sale has been so successful that we can afford to absolutely sacrifice the balance

of the stock now on hand. The prices we shall name will appear almost beyond reason, yet you have the assurance of this

firm that every price and description is exactly as represented.

This final wind up will afford opportunities that have never been equaled in California and wise men will lay in a supply of clothing for months and months ahead.

live source, is one of the plans for the greater development of Southern California which H. E. Huntington will make effective soon after his return from New York.

As an initial step in this direction, it is reported that on Mr. Huntington's recent trip to Oceanside and San Diego he purchased the Rancho Paubra near Oceanside, and has secured options on other properties in the vicinity, of an aggregate of 75,000 acres.

It is believed that Mr. Huntington has been looking to this portion of the State for some time as a region which would respond to the touch of progress and the judicious investment of capital. It is a portion of the State which offers possibilities for development once it is brought in close touch with the busy outside world.

A part of an extensive scheme of development will be the improvement of coreanside which it is believed possible to make one of the most charming of southern beach resorts. This beautiful spot is but forty miles from the present terminus of the Pacific Electric Railway at Newport Beach, so that the task of extending the line to this point will not be a difficult nor one of magnitude for a company like the Pacific Electric.

mitude for a company like the Pacific Electric.

It is possible that the road may not be extended below Oceanside for some little time to come. The route of the electric road would cut through a beautiful and richly productive agricultural country which would furnish a considerable freight and express traffic not ospeak of the passenger business.

From Oceanside to San Diego, how ever, is but another step, and the business men and residents of that portify are anxious to see this electric system reach from Los Angeles to the Mexican border, as they are confident in that it would be of immense advantage to them commercially and economically.

"Dn" Thomas H. Story, who, it is claimed, is guilty of fiagrant malpractice in the case of James Richsteiner, now a patient at the County Hospital, was arrested yesterday and released on a bond signed by Dr. Carl Schultz and W. B. Ardouin, to appear for arraignment today. His arrest has no bearing on the Richsteiner case, further than to help establish the allegation that he is practicing medicine without a certificate from the State Board of Medical Examiners.

The story of the "treatment" of Richsteiner for spinal trouble, and of the probable permanent, if not fatal, injury of the fatient, was fully told in The Times on Wednesday. In case of conviction for illegal practice, it may be that a charge of malpractice will also be brought against Story. It has been agreed that Richsteiner will be sent to court in an ambulance to appear as a witness in the present action.

GOES ON CHAIN-GANG.

One Fred Robinson, who makes claims to being a "newspaper man," has begun his second dose of service on the city chain-gang.

After, being kicked out of a newspaper office the other night, he made a drunken raid on the Good Samaritan Hospital, stormed about the place regardless of the comfort of patients. In the absence of Dr. Pahl, who would have thrown the cur out, he used foul have thrown the cur out, he was the conduct himself in this way for hours before Patrollman Neighbors was called in, to dr. g. him to jail and throw him in the tanks, where he belongs.

The fellow pleaded like a baby to be let go on his good behavior, but that had been tried before. He concocted all kinds of plausible tales, in an attempt to explain his conduct, tind and the two nurses, who appeared against him to assent to some of his lies to the court, but they denied everything ha said.

This is Robinson's fourth trip through the Police Station and when he gets through with his flity days exercise on the chain-gang, which is a job of the proper proportions to fit his central callber, he should be warned from the city.

The first time he was arrested he was released through charity; the second time, he was given a sentence of ten days; the third time he got twenty days, and now fifty.

usually be substantiated by a comparison of the coal bills before and after in roducing stokers, without resorting to expert tests.

Whenever for any sufficient reason the stoker can not be introduced, there are other devices which will mitigate the smoke nuisance considerably and also save fuel. The steam and air blast has already been mentioned. A recent improvement which promises well is the combination of steam jets at the bridge wall with oil vapor, creating at intense heat at that point and consuming the hydrocarbons as they pass through. The expenditure of oil is comparatively small and considerable commy is said to result. Brick arches and baffle walls have also assisted in minimaling a high temperature and in properly mixing the gases. The use of a reverberatory furnace or outside oven in which the coal and its gases are thoroughly burned before going to the boiler is another satisfactory method of reducing smoke, and may be used as well with as without a stoker. In short, whatever produces good combustion abates smoke. In apariment houses and stores where the hollers are used for heating only and the steam pressure is low, the use of fuels which are comparatively smokeless is about the only satisfactory solution.

ZURBICK'S LUCK.

Warren Zurbick, the eastern welterweight scrapper, who was to have weight scrapper, who was to have made his local debut in one of Tom McCarey's preliminaries the last Priday night of this month, is playing lin hard luck, indeed.

Yesterday, McCarey was notified that George Brown, who was to have gone on with Zurbrick, injured his hand seventy yards: Anadarko woon, Wedgewood second, Bavarian third; time 2:48 2-5.

Six furlongs: Excitement won, Topsy Robinson second, Sonny third; time 2:18 2-5.

Thus, Tchito of Japan, who five years ago agreed to sell rice to Plovski of Russia for ten years, will after the settlement of the treaty begin again to do so from the point where he left off when his country's torpedo-boats began operations on the Russian fleet at Port Arthur. In the meantime Plovski may have forgoiten all about the contract, and even, in these hard times in Russia, gone into another line of business, but Tchito can force him to keep on buying the rice.

Another leading case shows an odd point. During the Franco-Prussian War of 1870 the German Government entered into contracts with certain French persons for cutting wood in French forests. After peace was settled the Germans claimed that the French Government allow them to complete the cutting, inasmuch as the German Government had acted within its rights in making the contract. The French held that the restoration of its authority over this territory bad automatically concluded this contract, and eventually Germany acquiesced that this was a correct statement of the international law upon the subject.

"Marks of approval on many benches" cost as much as £2 or £2: a suitably "prolonged movement" cannot be produced at less than f.18 or f.25. "Ironical cheers at the Left" are exceedingly costly, while "loud approval at the Right" runs to a price beyond all reason.

He notes that a few days ago the applause from the government benches at the end of a speech of the Railway Minister cost exactly f.65 &5c, and that a sitting of three hours, which was occupied by three indifferent speakers, cost f.22.678.60, or close on to £1000. Two Interesting Sales

Wonderful Neckwear Values An extensive variety of fashionable neckwear for women; one of the largest assortments in washable and fancy effects ever shown in Los Angeles. These are NOT styles whose sale has to be forced by reducing prices, but this season's very choicest pieces—stocks, turnovers and bows, in value ranging from 50c to \$1.25-at 25c each.

The Tea Room

The Tea Room provides a most delicious and substantial menu for women and men during the noon hours—from 11:30 to 2:30 daily-at very reasonable prices. Salads, ices, etc., during the afternoon.

> Skirts Made Free

More extensive arrangements have been made since we moved into the Greater Coulter Store -we're much better equipped than in any previous season to complete large numbers of orders with dispatch. But the response to this announcement will undoubtedly tax even our greatly increased facilities, especially since we will now make up cotton and linen materials as well as wool and silk.

The conditions are: you buy the required materials here—if cotton or linen, at 50c or more a yard; if wool or silk, at \$1 or higherwith the necessary findings, and we will make a plain walking skirt without further cost, except a nominal charge for findings.

We will make any style skirt you desire for a small additional sum. In every case a perfect fit is guaranteed.

Orders may be left after 1:30 any afternoon purchase the materials when it best suits

Special sale of Belts begins today; shirred, tucked and tailored effects, in every color of silk and wash materials. Some have buckles, others invisible fastenings. ALL are the styles in favor this season. Your choice a5c-from belts worth 50c to \$1.50 each.

30c Ribbons 20c

Today and tomorrow we're going to deduct ten cents from the usual selling price of every yard of five-inch all silk wash taffeta ribbons—white, cream, pink, light blue, brown, navy and black—making 30c ribbons soc a yard.

Women's Wear

Attention is directed to latest models in Suits of wool, silk and liner materials, in the most fashionable shades, for mountain, seashore, traveling and dress wear, at unusually attractive prices.

Inventory causes this seeming exemplifica-tion of utter lack of appreciation of the fact that full prices could readily be secured for these beautiful garments, since now is the hey-day of their wearing time. "A few price-hints must suffice for many:

Splendid suit of mohair; Eton jacket, with braid trimmed vest—flare skirt, braided yoke effect, \$18.50 value for \$7.50.

Silk coat suit in brown, with short pleated jacket, inserted with bands of lace; full pleated skirt; \$32.50 value for \$18.50.

Whits linen coat suit, box coat, with tailor stitched seams; cuffs, collar and pockets of colored linen—full pleated skirt; \$15.00 value

Suit of blue voile; full blouse jacket with silk girdle; blue and white silk vest; skirt with fancy shirred yoke effect; drop skirt of blue silk; \$62.50 value for \$37.50.

geles from Escramento.

All of the particulars of the ugly scandal which was exposed last year at the Southern California State Hospital at Patton, and which caused one man to commit suicide and others to lose their positions, are to be thrashed out in the Superior Court of Los Angeles county. At Sacramento yesterday, Superior Judge Hughes granted the motion for a change of venue to this county, which motion was made by the defendant in the suit of the State of California, by State Controller E. P. Colgan, against Dr. M. B. Campbell.

and Shot to End Its Misery.

The animal was thirty years and more, had only one eye, was covered with sores, emaclated from starvation, and seemed to be suffering from glanders. The poor brute was led to a lonely spot along the rallroad and his torture ended with a bullet.

When the old Chinamen was asked is he owned the animal he quickly answered in the negative and said "Sing Lee, him own hoes."

This was just what the officers had been waiting for. With the necessary evidence in their possession, Sing, inspite of his gold, will have to standtrial in an Anerican court.

The officers claim Sing has been acculring wealth by buying and selling animals unfix for service, that he has used these animals to carry on his business, and that he has fed them next to nothing.

The society's officers say the case will be pushed vigorously against Sing and an effort will be made to incriminate others implicated in the heartless work.

THE OIL INDUSTRY,

has been taken in this city. It is in the nature of a preliminary basis for future action rather than an actual raise affecting any number of gonsumers; that will come later. The chief competition is between the Union and the Associated-Amalgamated combine. The smaller companies, are not real factors. The city field has little to sell and what it has is going mostly for road purposes. At Whittier, Fullerton and Olinda the Union occupies a position somewhat similar to that of the Associated at Kern River and Collinga and controls a large part of the production which goes through its pipe line to market. There are a few notable exceptions to this rule among the producers. The Puente oil does not appear to be sold here as fuel to any great extent.

Ever since the Associated invaded the south after the lowering of the freight rate from Bakersfield, and especially since the combine acquired its interest in the Sait Lake property and organised the Amalgamated, there has been fierce competition with the Union, which had formerly been largely in control of the fuel market south of the Tehachepl. Prices continued to fall until the city was able to get oil from the Amalgamated for the Buena Vistaireet waterworks pumping station at 39 cents a barrel, and several contracts have recently been let on a basis equivalent to between 35 and 40 cents (a.b. Los Angeles. The Union and the Associated have entered into a combine by which it is agreed that no oil shall be sold for less than 40 cents (a.b. Los Angeles. In other words, if for instance, the oil is to be delivered at any point where the freight from this city is 10 cents a barrel the oil cannot be sold there for less than 30 cents, via. unless it is obtained from some point where the freight from the city. It is safe to say that the deal was arranged between him personally and some high official of the Union. It is known that he spent considerable time while in the city around the office of the Union in the Heliman building and was closeted for several lengthy conferences

ject of discussion and then is when it is likely that the agreement was made. The understanding arrived at does not mean that the Union and the Associated have in any way consolidated or that either one has bought out the other. Neither would probably sell unless the price were several times higher than the other would be willing to pay. So far as is known the agreement was purely informal and only verbal. Within the limit laid down it is understood that the two will compete as before.

At present oil is not generally to be had at 40 cents in Los Angeles, hence the agreement is more in the nature of a barrier against further cutting than a raise. Among the oil men, however, it is thought probable that this rate will shortly be increased. Geheral Manager Porter and Director C. A. Canfield of the Associated are now in New York, this being Mr. Porter's second visit to the East within a few weeks. On his return many look for important developments, among them a substantial increase in the price of oil.

Three days of misery stared Goode in the face.

"I'll have to chew," said Goode.

"I'll have to chew," said Goode.

"Twouldn't last two hours," replied his companion, exhibiting a gnawed bit of black plug about the size of a five pound cake of ice that had been in the hot sun a few hours. As they crawled over the white aands one whole forenoon, the two discussed means of making that little bit of tobacco fill all their wants.

Suddenly Goode was surprised to see his mate draw the plug from his pocket and take a liberal bits.

"Damned selfish," muttered Goode.

"Wait and see," retorted the chewer, who ambied along at a brisker galt under the spell of the licorice and molasses in the plug.

Stopping a little later, the chewer carefully spat his cud on a flat and very hot stone, upon which the remnants of tobacco quickly dried.

At a mere word from his resourceful "bunky," Goode scooped the dried tobacco into his pipe, touched a light to it and the next instant was blowing clouds of blue smoke from his meath.

More Than \$500 of Stock.

The people of Los Angeles can now buy bank stock at only \$5 per share. No one will be allowed to purchase more than \$500 of stock. Capital is to be increased to \$500,000, making bank of a thousand small stockholders, thereby becoming the people's bank of Los Angeles. The Consolidated Bank of Los Angeles has decided to place its stock with the people, believing that in securing a thousand stockholders it will secure a thousand depositors at the same time, investors can purchase such stock with absolute eafety as to perfect security, and realize a handsome profit therefrom, as has been done by the owners of stock in the various other banks of Los Angeles. This is the only opportunity ever offered the general public to buy stock in a Los Angeles shah at \$5 per share. We would rather have \$500 stockholders of \$100 as the more stockholders there are each than 1000 of \$500 each, We want the greatest number of stockholders, has stronger the bank. All stock fully as the more stockholders, the greatest number of stockholders, the stronger the bank. All stock fully paid up at Five Dollars per share. Purchasers can buy from 1 to 100 shares at \$5 per share, but no one can buy more than \$500 of stock. Subscription books just opened. Purchasers can subscribe for 100 shares and pay for the same in weekly payments of Five Dollars, and receive one share of paid-up stock as each \$5 payment is made. CORONA DEL 1

("Crown of the Sea")

LOCATION

This beautiful tract lies just across the bay from Newport. It has one mile of ocean frontage and two miles fronting the Bay of Newport, which is the most beautiful bay in Southern California. This bay is navigable, at any stage of the tide, for a distance of 5 miles, and has a fine sandy beach, affording the advantages of still water bathing, boating and fishing.

The greater part of CORONA DEL MAR lies on the bluffs, overlooking the ocean and bay; it also has a halfmile of sandy ocean beach and over 300 beautiful sand lots, giving the preference of living either on the sand or the

IMPROVEMENTS

There is, completed, a pier built out into the ocean, also one into the bay. A 5-mile drive, known as "Bay View Drive," skirting the bluff's, overlooking the bay, all graded. We have also developed FINE ARTESIAN WATER, which is now being piped onto the tract. Plans and specifications are now being drawn by the Atlantic and Pacific Improvement Co. for a bridge to cross the bay, which will connect CORONA DEL MAR with the Huntington Electric Line. All streets will be graed and oiled at our expense.

FACTS CONCERNING CORONA DEL MAR

Two lines of electric road are being built into Newport-one via Santa Ana and one via Huntington Beach. It is expected that cars, by way of Huntington Beach, will be running into Newport on Sunday, July 28. Mr. Huntington owns over 300 acres of islands in Newport Bay, and over a mile of ocean frontage there. With two electric roads and with Mr. Huntington so largely interested there, we will leave you to judge as to the future of Newport. Look over other beaches where his lines have penetrated and where he is interested, and see what the history of them has been. We need not tell you!

We claim for CORONA DEL MAR the most beautiful marine view, and that it is more beautifully situated and has more natural advantages than any other place on the Pacific Coast. Go down and take a ride on this beautiful bay, as we have a large launch there and will be pleased to show you our beautiful tract, also any other property there which you might wish to see. Don't delay! Come to our office Saturday for maps and plats, and go down Monday to see the property!

Maud Lord Drake has been one of the most celebrated "mediums" in the United States for forty years; she ha a woman of high intelligence, and pos-sesses a cultured and rather "elegant" manner, distinctly Bostonese. It is said that the late Senator Stanford paid her large sums of money to give him mes-sages from his dead son during the time the university was building. Of late she has almost gone blind, and seems to have gone into the cheap-est variety of spiritualist work.

PARRY, NOT SAUNDERS. Man Slain by Miss Willia Have Changed His Name Two

Years Ago. Richard Saunders Parry was the real iamson, according to William Morse, friend of the dead man, who rooms

at No. 736 Towne avenue.

For some time previous to the unfor-tunate shooting. Parry went by the name of Richard P. Saunders, and Morse is unable to give a reason why his friend should use an assumed name. Parry was a native of Holyhead. Parry was a nitive of Holyhead, Wales, and came to Southern California about two years ago from Lake Crystal, Minn., where he leaves a cousin, his only relative in this country, Owen Rose, who is the beneficiary in his life-insurance policy of 31000. Parry and Morse had an appointment for 7:30 o'clock on the night of the shooting which Morse was unable to keep. Both were to spend the evening

Earl Whetkill was arrested at Rialto day charged by William Weston with usily overdriving a carriage animal. In horse belonged to Weston, who dold his ranch at Rialto to hetkill's parenta, and had left his orse and carriage in the barn fording Whetkill to drive the animal.

10

Whetkill denies that he drove it at all, but Weston claims that the youth took the horse and carriage out Monday and with a companion drove to Covins and back, a distance of over sixty miles in less than eight hours, and that when he found the horse in the stable next day it was in a pitiful condition from overexertion. Dr. A. B. Wise, a horse doctor says the animal is permanently injured and may die.

COLTON.

SNIFF AT SCOTT'S MINE.

COLTON, July 20.—Two prospectors,
Charles and Carl Hoyt, are in from the
Bullfrog mining district. They spent
yesterday and last night in Colton.
They have been for seven or eight
years continuously prospecting in various parts of the country. They believe that the group of mines in the
Ord mining district, of which the
Elisie and the Chara are the most
prominent, are exceptionally good, and
when worked will prove very rich. The
principal owners of these mines are
residents of Colton.

In regard to Walter Scott's supposed
rich mine in the Funeral range in
Death Valley, the Hoyt brothers say
the mine itself is nowhere to be found.
They have traveled extensively in
Death Valley and state that no one
there knows of such a mine belonging
to "Scotty."

COLTON JOTS. Some time ago Constable M. A. Bagley received a letter from E. P. Wilson, City Marshal of Riverside, describing one J. P. Belshaw, a man who disappeared on July 5, and of whom there has been nothing learned since, He bought a ticket from Riverside to Antioch on that date. Today Constable Bagley received a dispatch from M. S. Bawlet, special Southern Pacific officer at Los Angeles, inquiring about this same man. The dispatch stated that he was last seen at Coton and that he was supposed to be demented.

Pretty Bursts of Speed in the Six Events and Some of the Finishes are Almost Sensational in Their Feaeying and No Betting Allowed.

(BY DIRECT WIRE TO THE TIMES.) Dispatch.] Lovers of decent racing were out in force this afternoon to witness the last matine meet of the Riverside Driving Club for the season. And they were not disappointed, for there were some pretty bursts of speed in the six events, and some of the finishes were almost sensational in their features.

Cups were offered for each event. There was a refreshing absence of jockeying and no betting was allowed. The winners in the several events were as follows:

Three-minute road race: Hudson's Prince: Walter's Miss Belton second; time 2:30.

Secretary Winterbotham of the Cham-

Becretary Winterbotham of the Chamber of Commerce reports an unusual demand for information concerning Riverside. There is but little demand ordinarily for literature or more specific information at this season, but of late he is kept busy answering letters from easterners.

Real estate men report renewed activity in sales of late, too, and some important deals have been negotiated in the past few weeks. Town property is especially active.

Building improvements have kept up well for the summer, and there is said to be not an idle carpenter in the city. Building was slack during the spring, and nobody appears to know why constructive activity should be recommenced in summer.

working his oiling crews overtime these days. The most extensive campaign ever entered upon by the city has been commenced, and two oiling machines will be kept busy during the entire summer. Eleventh and Wainut streets were treated to a coating of oil yesterday, and today Sixth street is being oiled. In most cases property owners pay two-thirds of the expense of oiling and the city the other third.

the Anaheim Chamber of Commerce last night. Charles F. Hell, representing the ranchers, who are preparing to incorporate the country below the Fifth street bridge, addressed the chamber, explaining the methods of procedure and the probable results.

After a full examination of the situation the Anaheim board passed a resolution indorsing the movement and recommending the formation of the second proposed district from Fifth street, the northern point of the first district, to the Olive bridge. Representatives from Anaheim will be here Saturday to confer with the local committees, which will meet to hear the report of County Surveyor Finley as to the probable cost and the most practicable district boundaries.

The formation of the second district will not only provide safety for the river, but will result in delivering the water in a compact body into the channels of the lower district, thus obviating much extra work and preventing the washing of rands into the ditch. When both districts are organized all the points where there is danger of overflow in time of heavy rains will be amply protected.

Mrs. Reagan's Long Search for Relief from Distressing Experiences Caused by Overwork at Last Succeeds

"Before I began to take Dr. Williams'

"I was in and out of bed all the time,
but now I stay up all day and work."
"What was the cause of your trouble?"
she was asked.

a tight cand had been put around it, and
the pressure and the sounds made me so
uneasy that I often had to walk the floor
all night when I ought to have been
sleeping."
"Did you have a doctor?"
"Yes, I was under the care of a physician for some time, but I finally gave him
up because his treatment did me no good.
"My stomach was in bad shape, and I
had smothering sensations. At such times
my bod? seemed bloodless, my hands
were like chalk and my face turned yellow. The doctor said I had dyspepsia in
the worst form. Then my nerves gave
way and I was completely prostrated. At
night I could not sleep, and in the daytime, if I bent over to pick up a rug, the
amothering sensation would come on at
onee."
"How did you find a remedy!"

smothering sensation would come on at once."

"How did you find a remedy?"

"After I had used many advertised medicines, we read in the paper about Dr. Williams' Pink Pills for Pale People, and my husband bought a box and insisted that I should take them.

"The first box I used quieted my nerves so that I could get a good night's sleep, which was a new sysperience for me. Before I began to use them I was a nervous wreck and trembled at the slightest sound. I was so weak that I had to sit down and rest every few steps when I went up stairs. Now I can run up a whole flight at once. The smothering sensations have gone and the noises in my head have stopped entirely. My appearance have greatly improved, for triends who were alarmed on my account before, now say, "How well you are looking!" My husband spent over a hundred dollars on treatment for me that was worthless, but a few boxes of Dr. Williams' Pink Pills brought me sound health."

Mrs. Mary Reagan lives at 86 Kilburn street, Fall River, Mass., where Dr. Williams' Pink Pills are a favorite remedy. These pills are guaranteed to be free from stimulating or harmful drugs of any description, and may be taken without lear of injury to the most delicate system. They quickly cure nervous disorders of every kind, check wasting diseases and build up strength. They are sold by all druggists.

Dr. Quayle, With Burning Words, Points a Moral from the Sorrows of the Mad King Parted from His Realm and Suffering from Base In-gratitude of His Daughters.

old mad King with tangled white locks, the ingratitude of his daughters and the dissolutions of the court around him and its application to everyday life was one of the best bits of word painting ever given before a Long Beach Chautauqua. Dr. Quayle said in part:
"No one can be a reader of classic tragedy but can see that it is unfair for we moderns to demand a fair chance for everyone. In the classics the gods are everything, man is nothing. Shakespeare's tragedy is differ-

fied to understand the temporary things in life. Dr. Crosswell spoke on the subject of nature study in the schools as necessary to make the child more religious, more sensitive of right and wrong and more capable of earning an honest living, without being a parasite on society. At the close of the lecture the class adopted resolutions of appreciation for Dr. Crosswell's work.

Today was recognition day and the early part of the afternoon programme comprised songs, responses and taiks constituting the services in connection with the presentation of diplomas to three graduates who have completed the Chautauqua coures. They are William Krause, Mrs. Ida Crowell and Mrs. M. I. Sovereign. The concluding lecture was by President Gates of Pomona College on the "Modern Scientist's Universe." The preludes tonight were by Miss Nell Lockwood, contrain, and Miss Elise Behymer. reader.

Friday Rev. E. P. American labor, because as a rule the Chinese labor never came into competition with American labor. Only in the shoe, cigar and clothes manufacturing lines Chinese labor performed some work with white labor. During the twenty years of Chinese exclusion, in all these lines Chinese labor decreased in number, but American labor also decreased in the mane ratio; the output also decreased.

"As lo the reasons put forth as ground for Chinese exclusion, that the Chinese do not become citizens, that they do not assimilate; that they send their money out of the country, etc., it may be observed that there is a law preventing Chinese becoming citizens of this country, and no inducement whatever was offered the Chinese to assimilate, and while on the other hand many hindrances were put in their way of doing so. The Chinese send some money out of the country, but they leave a full value in labor for every dollar they send out. And what they send is infinitesimal compared to what is spent by American millionaires in Europe, and what European laborers send out of the country.

"The progressive legislation of Chinese exclusion laws and their interpretation and enforcement are unreasonable. Since the first Chinese exclusion law was passed in 1882, the Chinese population in the country steadily decreased, yet Congress kept on enacting sterner and sterner measures against the Chinese, until now it amounts to persecution of the Chinese in the country are regarded as criminals, and are liable to arrest at any time until they can prove with white witnesses to the satisfaction of the imprecora that they are otherwise, and then are permitted to remain in the land.

"The Chinese exclusion law is unreasonable because it violates all treaty stipulations made between America and China. National honor amounts to more than dollars and cents. Blessed
